

VOL. 46 No. 11

Thursday, July 29th, 1948

DAILY TRAIN SERVICE TO START MONDAY

Starting Monday, August 2nd, the C.P.R. will inaugurate their daily train service between Glenwood and Lethbridge.

Several trial runs have been made this month and a schedule worked out. The service is daily except Sunday.

The proposed schedule will be as follows from Raymond.

Leave Raymond for Lethbridge at 9:25 a.m. and arrive Lethbridge at 4:55 p.m. daily except Sunday.

Saturday evening the train will return to Lethbridge for repairs and will be in Raymond on the return trip at 10:30 p.m. and will arrive in Raymond Sunday evening from Lethbridge at approximately 8:25 p.m.

The train is a gas-electric unit similar to the one running the Connaught Lethbridge line. Half of the engine unit is used for baggage and express and will pull one passenger coach.

With Raymond situated as it is with uncertain road conditions during stormy weather, the daily train service will mean dependable service to and from Lethbridge and it is hoped that the people of this south district will patronize this service that it will be permanent. And if the daily service becomes a permanent thing then we hope also that they can haul the mail which more than anything else means so much to the people and businesses in this district.

Teachers Get Increase

At a recent meeting of the School Board and Teachers Salary Committee a new salary schedule for this Raymond teachers was negotiated.

The new salary schedule brings the rate of pay for Raymond teachers in line with surrounding school districts and divisions.

The new schedule gives public school teachers a minimum salary of \$1500 with \$150 increase for the first year of experience and \$100 a year increase for the next six years experience, for a maximum salary of \$2250, at the end of seven years.

High School teachers receive a minimum salary of \$1700 with the increases for experience the same as the public school for a maximum salary of \$2450.

Extra qualifications include \$600. for a degree, \$500. for principals, \$50. for Junior certificates, \$75. for Senior certificates, \$100 for Junior Shop, \$150. for Senior shop, \$100 for primary teachers, and \$150. for those with homes established in Raymond.

Several vacancies on the staff of both schools have been filled.

Miss Molly Johnston, Taber; Reid Erickson; Dorothy Wilde, Welling have accepted positions on the public school staff. Miss Elaine Steed, Cardston; Caidon Hill, Taber; have accepted positions on the High School staff. William Love Nalder will teach Seminary in the High School also this year. This completes the staffs of both schools for the next term.

Attending Family Reunion Vancouver

Mr. and Mrs. Lee Brewerton are leaving soon for a holiday at Vancouver. While there they will attend a family gathering Aug. 7, held in honor of the birthday of their father, the late Charles W. Brewerton. Others planning to attend are Mr. and Mrs. Gordon Brewerton, Cardston; Mr. and Mrs. Spence Young and family of Salt Lake, Mrs. Phyll Brewerton and son Larry, Los Angeles; Mr. and Mrs. Roy Brewerton San Francisco; Mr. and Mrs. George Brewerton of Vancouver.

Will INTERN IN UNITED STATES

First Lieutenant Harlan G. Taylor son of Mr. and Mrs. F. R. Taylor of Raymond, is among the twenty four medical school graduates taking their medical internship at Brooke General Hospital, Brooke Army Medical Centre, Fort Sam, Houston, Tex.

Under the United States Army Educational Program he will receive training in every professional service of the hospital, from contagious diseases to surgery. Under the guidance of medical officers and civilian consultants he will treat illnesses of many of the people destined to become patients at this hospital during the next year.

Commissioned a first lieutenant in Medical Reserve Corps he has the choice at the end of the year's training of accepting a commission in the United States Regular Army, or of returning to civilian practice.

Lt. Taylor is the only intern at Brooke General Hospital who graduated from a medical school outside of the United States. He attended the University of Alberta, and during part of his training there he was a member of the Canadian Officers Training Corps. His fraternity is Delta Kappa Epsilon.

New Dayton

Miss Vera Cress spent the past weekend at her home here.

Mr. and Mrs. Rex Cahoon returned home on Sunday after spending the past few months in California.

Mr. and Mrs. Mae McTigue are receiving congratulations on the birth of a baby boy.

Mr. and Mrs. Bob Newman and Barbara and Stewart returned home on Monday after spending the past month in Winnipeg.

Fourteen people attended a birthday dinner Thursday at the home of Mr. and Mrs. J. J. Cress in honor

(continued on back page.)

Wedding Bells

McLAIN — RALPH

Thursday, July 22, the home of President James H. Walker was the scene of the very pretty wedding

of Bernice, eldest daughter of Mr. and Mrs. S.A. Ralph and Jack eldest son of Mrs. Lyte McLain, all of Raymond. The ceremony was performed by President Walker with members of both families present.

For her wedding the bride chose a pale blue silk jersey afternoon dress and wore a corsage of pink roses. Her accessories were white.

Miss Clara McLain, sister of the groom was bridesmaid and was in a salmon pink gown with matching corsage. Deo Rolfeon supported the groom.

Mrs. Ralph, mother of the bride was attired in a beige suit with pink corsage and Mrs. McLain chose a grey silk jersey with red rose corsage. Immediately following the ceremony luncheon was served at the home of the brides parents. Later the young couple left for a honeymoon at Waterton.

They will reside in Calgary for the next few months, later making their home in Raymond.

Local Happenings

Mr. and Mrs. T. George Wood entertained at dinner in honor of Mr. and Mrs. F. H. Ballou of Vancouver. Mr. Ballou is an official of Canadian Sugar Factories Ltd.

Mr. and Mrs. Leslie L. Palmer left Monday for a holiday at Edmonton. On their way home they expect to visit in Banff.

Mr. and Mrs. Joseph McLain and Mr. and Mrs. A. E. Hogue have been holidaying in Calgary.

Mr. and Mrs. F. R. Taylor and daughters Kathleen, Marilyn and Carolyn are on holidays, visiting their daughter M. S. Byron Anderson and Mr. Anderson in Montreal.

Mr. and Mrs. Wm. Zohell had as their guests over the weekend the letters brother-in-law and sister Mr. and Mrs. Jack Dalgleish of Picture Butte.

Mr. and Mrs. Carl Gelumlich and family have been visiting relatives in Picture Butte while on holidays. Mr. and Mrs. Fritz Gehmlich of Picture Butte returned home with them for a short visit.

Miss Shirley Barker was honored Friday evening at a pre-nuptial shower at the home of Mrs. Ann Turner when she received some lovely gifts. Out of town guests were her aunts Mrs. Thelma Jacobs and Mrs. Alma Fawcett of Stirling. Hostesses were the Misses Bernice Hanson, Wanda Holland and Jean Robinson.

ENGAGEMENT ANNOUNCED. Mrs. Lyte McLain announces the engagement of her only daughter Clara to Deo Rolfeon, youngest son of Mrs. Clara Rolfeon, all of Raymond. The marriage will take place September 15th.

Mr. and Mrs. J. G. Snow left Monday for Salt Lake City. They will accompany Mr. O. H. Snow home.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. E. C. Coombe of Hensburg, Alberta, announce the engagement of their daughter Doris to William Reid Erickson, third son of Mr. and Mrs. A. D. Erickson of Stirling. The wedding will take place in Stirling at the Erickson home on August 2nd.

Miss Delores McMullin and Miss Katherine Turner left at the beginning of the week for Summerland B. C. where they have employment for the next few months.

Miss A. E. Bert and Mrs. Verna Hedenstrom and children are holidaying at Waterton.

Mr. and Mrs. Wm. Wiggill and son Nicky have returned home after a holiday at Waterton.

Mr. and Mrs. A. G. Evans are enjoying a visit with a former Miss. Mary companion of Gils, Mr. Burns Edmonson and Mrs. Edmonson and children of Oak City, Utah. They, with their guests, spent a few days at Waterton, returning home Sunday evening.

Mrs. Enada Gill and two children of Picture Butte visited the past week with her grandmother Mrs. R. A. Nalder.

The Misses Kay and Margaret Stone were hostesses to a slumber party Friday evening to a number of friends.

Miss Evelyn Thompson spent last week end in Calgary, the guest of her sister Lucille.

Miss Margaret Greep is on holidays from Canadian Sugar Factories and is spending part of her vacation with relatives in Taber.

Mrs. Amy Abbott and daughter Karen were Waterton visitors last week.

COMMENCE WORK ON NEW SIDEWALK

NEWS NOTES

Miss Gwen Hawkins, who is employed in Vancouver spent last week here with her family. A family party was held in her honor Thursday evening. Mr. and Mrs. Darrel Cox of Brooks were here for the occasion.

1st and 4th ward Juniors and Seniors held a "weiner roast" Thursday. Games and swimming were enjoyed.

Mr. and Mrs. Joseph A. Nilsson and daughter Mildred and son Don and wife, and Mr. and Mrs. Louis Fraser and family and Mrs. Sara Fraser are enjoying a motor trip to the States. While in Portland they will attend the reunion of the Gould family.

Mrs. Marie Matkin was honored Thursday evening when the Birthday Club met at her home and presented her with a birthday gift. Miss Gwen Hawkins of Vancouver was an out-of-town guest.

Mrs. Myrtle Reber of Calgary was a Raymond visitor last week.

Mrs. Stella Hirsch and two sons of Nacled are visiting her mother Mrs. Chas. Atwood.

Mr. and Mrs. C. D. Compton of Winnipeg are renewing acquaintances here this week. While here they are guests of Mr. and Mrs. S. B. Card. Mr. and Mrs. Compton are former residents here. Mr. Compton having been Manager of the Bank of Montreal here.

Mr. Ted Grey who has been visiting his old home in Sarnia, also enjoyed a nice visit with relatives in Chicago and is now enroute home. He will stop in Winnipeg to visit for a week or so with his son Jack and family.

Work commenced this week on the new sidewalk on the east side of Mainstreet with Ehlers and Gibb holding the contract for its construction.

The sidewalk will run from the corner opposite the Town Hall, two blocks north to Don Vincent's corner.

In the business section the walk will be eight feet wide and will be set out from the building fronts six feet. Also there will be a curb and gutter of cement construction. Construction of this walk is a step in the right direction and as soon as the sewer and water line is finished the sidewalk on the west side of Mainstreet will be finished.

We understand this walk will be approximately 11 feet wide with a curb and gutter.

The work will be completed as fast as possible now.

200,000 Drivers Will Get Licenses

Licensed motor car drivers in Alberta this year may reach a total of 200,000 according to information received by officials of the Alberta Motor Association.

Already the provincial secretary's department has issued 161,000, compared with 156,000 in the same period of last year. The total for the license year that ended March 31 last was 191,192.

Car registration for the current year are expected to reach the record total of 110,000. For the three months ended June 30 the total was 101,500 compared with 92,771 for the same period of last year. For the whole of last year the total was 101,350.

For some time the A.M.A. has been interested in measures to have a system of proper driving tests being adopted in Alberta. This is believed necessary in the interests of safety on the highways.

No provincial government announcement has been made but it is believed the matter is under consideration. In the U.S. practically all states require proper tests of applicants for driver's licenses.

Honor Member Who Is Leaving

The United Church members held a social gathering in honor of Mr. and Mrs. Frank Crummer who left Monday for their new home in Taber. On behalf of the Women's Auxiliary of the Church Mrs. Hilda Wilde presented Mrs. Crummer with a lovely gift and on behalf of the United Church Board Mr. George Swedish made a presentation to Mr. Crummer. Mr. Crummer has been machinist at Canadian Sugar Factories for the past 16 years and while here they have made many friends who wish them joy in their new home.

Saturday evening Mr. and Mrs. A. C. King gave a bridge party in their honor. Honors went to Mrs. Ray Altwood, Mr. Ralph Reid and Mrs. E. H. Wagstaff. Mr. King presented the honored couple with a going away gift.

CORRECTION

Last week under "Waterton visitors" we listed Rae Jensen when it should have been Rae Heggle.

1299 Delegates to Liberal Convention August 5-7 Will Choose New Leader, Build New Party Platform

OTTAWA—To elect a new leader of the Liberal Party, and to build a new party platform, 1299 delegates with 840 alternates will come here from all over Canada for the third national Liberal convention to be held August 5-7.

The delegates who vote on questions put to the floor will, in a sense, represent the twelve millions of people of the Dominion. The delegation which will vote will comprise all Liberal M.P.'s and men and women who were Liberal candidates of the last federal election. There will be 735 delegates proper from the constituencies in the nine provinces, and 735 alternates. The Senate will be represented by 62; provincial representatives will total 140; there will be 12 national and provincial Liberal association presidents. Representation of provincial Liberal associations will be impressive. There will be 27 from women's associations; 27 from young Liberal associations; 51 from university Liberal clubs.

Public and party interest, of course, will center upon selection of the man who will follow Rt. Hon. W. L. Mackenzie King as Leader of the Liberal Party and as next Prime Minister of Canada. That election will be an out-in-the-open affair. Nominations will be thrown open and there will be no restriction as to the number of people who may be proposed and seconded for the balloting. The balloting itself will take place on the last day of the convention and will be accompanied by every known device to insure that the votes truly express the free will of the delegates. The ballot forms were printed two weeks ago; and upon their arrival were stored in a safety vault by a group of officials of the National Convention Committee. Just before the balloting is due at the convention, these ballots will be taken from the vault—again by several officials of the Convention Committee—and

THESE BALLOT PAPERS, being printed for the National Liberal Convention to be held in Ottawa, August 5-7, will decide who shall succeed Rt. Hon. W. L. Mackenzie King as leader of the Liberal Party. The printing, collating and stitching of these ballot papers necessitated special measures to insure protection of the documents, which later were transported to a safety vault in Ottawa, there to remain until taken under guard to the floor of the Convention for use by 1299 delegates.

transported under guard to the Coliseum. There, under the eye of officially appointed returning officers and scrutineers, the ballots will be opened and distributed to the voting delegates. After each vote, the counting will be done also under the eyes of scrutineers.

The Convention, the third which the Liberal Party has held since Confederation, will bring to Ottawa more than 3,000 Party members. At the Coliseum, where sessions will take place, there will be ample accommodation for the public in addition to delegates.

The official programme follows: August 4—Registration.

August 5—Registration; Convention opens; official address of welcome; election of Convention officers; appointment of committees; adoption of rules of procedure; speeches by representative Liberals; committee sessions.

August 6—Reports from committees; speeches by representative Liberals; general business; election of scrutineers and tellers.

August 7—Reports from committees; speeches by representative Liberals; reading of rules governing voting procedure; reporting of nominations of candidates for Party leadership; election of Liberal leader.

IT'S JUST AS GOOD AND CHEAP PER IN RAYMOND

My Week

by R. J. Dechman

A friend of mine, who, for his sins, must live in Toronto the Good instead of in Ottawa the Magnificent, visited this Mecca of Politics the other day and asked me to have lunch with him.

Unfortunately I couldn't but I went over to the hotel to see him anyway for he is a bright boy, full of ideas and worth listening to any day of the week. We talked about state medicine, sickness insurance, the inefficiency of many statesmen and similarly other matters of vital importance to those who now live in this world of sin and sorrow.

My friend is full of ideas. There are people who have a passion for going the wrong way. He can put signs along the road-side which mean exactly what they say and cannot possibly be misunderstood—a wonderful achievement in an age when so many are anxious to go wrong in the hope that good may come of it.

In the midst of our conversation he came forth with this suggestion: We have health insurance, also automobile insurance. In Ontario an auto insurance policy covers everything. If you have a collision and bend a mudguard the company compensates you. In Saskatchewan they have a different form of insurance unless damage exceeds \$100 you get nothing. There are certain advantages in that. It makes people more careful. A damage up to \$100 is not a serious one and the insured may very well carry his own risk to that amount.

Now my friend suggests that health insurance be issued on the same basis. The thing that knocks a man out so far as health is concerned is a long continued illness. He may have a limited spell of illness in which the bill amounts to \$10 or less. It is not a serious matter. Serious difficulty comes from long continued illness running into weeks and months with bills which tie a person up for life. Here is the risk which calls for insurance. It would be interesting to see the difference in costs between a general policy which covered everything and one on the basis of "\$100 deductible."

The dispute in regard to railway wage rates was settled by agreement. The railway unions had the power to strangle the economic life of Canada. Would the settlement have been

Lethbridge Experimental Station

Weekly Letter

Arthur Phelps

Arthur L. Phelps, Professor of English at McGill University, who gives his impressions of current best-sellers, old literary favorites and their authors, in a series of weekly talks about books and people. He is heard Wednesdays at 8:15 p.m. on CBK, 9:15 p.m. on CKY. For three decades Professor Phelps has been teaching English literature in Canadian Universities, and is a popular reviewer and author, as well.

the same if it were purely a matter of justice by the power of organized labor?

The reason advanced for the increase were wholly invalid. Imagine the claim that Canadian railwaymen should have American railway rates. Then so should Canadian farmers and all other workers. The cost to Canada of this increase would be terrible. In the long run the present increase will prove a costly business to the railway workers. Unfortunately they do not know the harm they have done. They will find out later—they have a greater interest in the welfare of the nation than they think they have. They have made a long stride towards the next depression. One cannot help feeling sorry for them.

Attorney General Blackwell of the Province of Ontario has resigned from his position. He feels that private law is better than he should do. The suggestion will be more profitable than that he should lobby for an increase. The suggestion, in some quarters, is that this constitutes a danger to the Province and that an effort should be made to increase the compensation of those who serve the nation and thus ensure their retention in government service. I know nothing whatever of the capacity of Mr. Blackwell. That is not the issue. There may be many other men of the same political faith who could serve equally well. Besides a good lawyer in private practice probably renders a service to the nation as important as he would render in serving his province.

I question whether an increase in the compensation of cabinet ministers in federal or provincial fields would draw better men into that particular task. If it succeeded in doing so there would be a loss to the nation as a whole through withdrawing these men from private business and putting them into government jobs. Men will accept political positions if they believe that there is a distinct honor in serving the nation instead of serving their own clients. Let them make their own decisions. What right has the government to monopolize all the good men.

HOW MUCH DOES YOUR FLEECE SHRINK?

Did you ever consider the fact that a ten pound fleece may contain as low as three pounds of clean wool or as high as seven? The remainder called shrinkage, is made up of moisture, grease, dirt, burrs, tags, and other impurities. The proportion of clean wool in the fleece determines the grease price of the wool so it can readily be seen that this proportion of clean wool can mean the difference between profit and loss. Shrinkage studies carried out at the Experimental Station, Lethbridge indicate that impurities in the fleece account for 30 to 70 per cent of the grease weight.

These impurities should be kept at a minimum because the price of wool is based on the clean yield, yet the freight charges are assessed on the total weight. Consequently, the grower pays freight on these impurities and receives no return for it.

The successful wool grower must be an efficient and economical producer. This means that the maximum amount of clean wool must be produced from each sheep, and every chance for increasing the yield must be used advantageously. The first opportunity to increase production occurs when the replacement ewes are selected. Every effort should be made to select those that are the heaviest wool producers.

The amount of clean wool is even more important in the selection of breeding rams, since each ram will have many progeny and will exert a major influence on the future wool producing ability of the flock. A simple method of determining which of the rams produce the greatest amount of clean wool may be employed at shearing time. A small sample weighing approximately one pound, may be taken from the fleece, secured, and the shrinkage determined. Thus, the yield of clean wool in the fleece can be obtained.

Further particulars concerning this method of ram selection may be obtained on request from the Experimental Station, Lethbridge.

THIS IS THE TRUTH

When it became known that the leader of the Progressive Conservative Party, Hon. John Bracken, has resigned as chief of the party due to ill-health, there was a flood of rumors that this may have been caused by the supposed critical rumblings within the party over his leadership especially since only a short time prior to the official announcement of his resignation stories were heard about Parliament Hill about a possible national convention being summoned by the 35 man national executive of this party either to confirm Bracken or pick another leader.

However, well informed circle backstage in this capital deny any such plans ever having been even considered. The truth is said to be that Mr. Bracken had been examined by some of Canada's best known medical men only a couple of days or so prior to his resignation and these physicians were quite blunt in saying that he would have to give up work if he wanted to prolong his life, with this report hinting that retirement from such strenuous activities as leading a national political party might be essential. Indeed the story about Parliament Hill states that, while the exact nature of the illness has not been disclosed as yet, it is of a serious nature.

Furthermore, Mr. Bracken, who is 65 is known to have desired to continue in his post for some time but his resignation was caused by unavoidable factors due to ill-health. In other words, well-informed sources here discredit entirely those stories about supposed dissatisfaction within the party with his leadership as bringing about this political bombshell. It is simply not true they are most emphatic.

MONEY TO BURN

Another price boost will raise the cost of coal for Canadians. It is reported here, and supplies may not be too plentiful next winter, depending upon a number of developments, particularly the weather, with the hint being that the fuel problem may really be a problem when the cold weather arrives.

In addition, it is learned here in official quarters that during the first half of 1948 the production of coal in Canada increased to 8,592,952 tons as against 6,649,700 tons in the similar period of last year but imports of coal have dropped to 11,379 tons as compared with 11,688,072 tons in the first half of the year or 2 per cent down over last year during the same period, though the demand is greater than ever for such supplies.

ing the same period, though the demand is greater than ever for such supplies.

DON'T WORRY — YET

It is quite correct that the Canadian railways have been obliged to pay a total of approximately 76,000 man-hours as a result of the wage increases granted recently to their workers and this has been to offset by all sorts of reports about possible hoists in freight and passenger charges coming soon in the wake of this added cost of railway operation. However, observers here in this capital are now inclined to believe that any new application by the railways for increases to offset the new costs may not bring quickly higher charges for such transportation services. Judging from experience in the past, such high freight and passenger charges may take months before they may be established if they are ever granted, observers hold, at least as far as any comparative large increase is concerned.

The case known to be a view here that perhaps the Board of Transport Commissioners might complete its already started inquiry into the equalization of existing freight rates before entering new applications for higher rates on the basis of the recently granted wage increases to workers.

IT'S ABOUT HOUSING AGAIN.

While claims may be heard that building costs are going down somewhat in Canada, it is in the capital do not seem to confirm any such opinion amongst those here who should know so that it would appear that such claims are nothing more than "wishful thinking". Indeed, months ago there had been such claims of this sort about a general decline in building costs being in the making. Now it is learned here that the demand for new houses has not weakened and material or labor costs have not slumped as anticipated earlier, with the result that costs are still mounting instead of dropping and the housing situation as a whole is reportedly worse, not better, to aggravate the whole problem. Cost of building may even go higher it is heard here now.

SPIRIT OF DPS

"They come here with tremendous hope, showing that the pioneer spirit is not dead", said Ross M. Winter, Immigration Branch of the Canadian Government, telling a meeting here that Canadians should not think of displaced persons as "down and out" since in many cases it was the better people who were forced to leave their country now. He disclosed that the Department received 33,000 applications from Canadians for the admission of relatives and of these, 30,000 are being now accepted for labor. He also described the settlement of thousands of farmers from Holland as a "unique movement". Before the flooding of Holland, they owned their own farms in the richest agricultural part of that country and they are farmers with funds who do not know what we mean by "hired help". They say they want to save as well as make a living.

as well as make a living.

CHAIN VERSUS INDEPENDENT STORES

Latest report of the Canadian Government has revealed that in May, 1948 sales of 945 chain store units operated by 24 chain companies in

the retail food field across Canada were 25% higher than sales of 1947 stores operated by the same 24 firms in May, 1947. On the other hand, independent food merchants had reported little change in volume of sales from May last year or a gain of only 1.4 %

HENRY AND JERRY

NEWS NOTES

Mr. and Mrs. A. Rose of Doncaster England, retired builder and contractor are visiting in Raymond for a 6 weeks period. They are cousins of the Meheew family. This is the third visit to Canada for Mr. Rose. The first visit being in 1906. Many old timers will remember 1906 as being the coldest and worst year on record and Mr. Rose will never forget how cold his hands and feet got. Mr. and Mrs. Rose recently spent ten days visiting with Grace Meheew Long in Lethbridge and at present are at the Zobel home.

Mr. and Mrs. Rose held open house for Canadian boys during the late war and Billy Meheew, Allan Long Ray Attwood and Bob Zobel recall many pleasant hours there. They also visited relatives in Eastern Canada and a brother of Mrs. Rose in Eastern U. S. A. and they are struck by everything being so plentiful. They say prices are much higher in Canada and the U.S. than in England. While here they will visit with Mr. and Mrs. Jack Meheew, Mr. and Mrs. Randolph Tolstrup before returning east. They expect to sail for England September 1st.

Mrs. S. B. Card has as her guest her sister Mrs. A. K. Thelin and Mr. Thelin of Crona, Cal. Sunday a family reunion was held at the farm of R. W. Kinsey when eighteen sisters and brothers of the Witbeck family gathered for a chicken dinner.

Tuesday evening Mrs. Card and Mrs. Mildred Wood entertained for Mr. and Mrs. Thelin and Mr. and Mrs. C. D. Compton at a chuck wagon dinner.

(continued from page 1)

of Mrs. Cross. A group of friends dropped in for a surprise party later in the evening.

Mr. and Mrs. Otto Cronkrite and two sons are spending the next few weeks in Waterton for their holidays.

Mr. and Mrs. G. Murfin and family of Pincher Creek returned home after spending the past few weeks with Mr. and Mrs. Bart Kaupp.

Mr. and Mrs. J. Phillips and family of Haley were guests of Mr. and Mrs. A. Kurtz on Sunday.

Mr. and Mrs. Ray Kaupp, Howard and Norman are holidaying in Waterton for the next few weeks.

FOR SALE—5 room house, plastered, insulated, stucco, built in cupboards clothes closets, basement good location. Priced to sell. GARAGE and Gas and Oil Bushness with home included. Good turnover. It would be worth investigating this business opportunity.

Too Much Speed Is Dangerous

The speed limit on Alberta highways has been set at 55 miles an hour. At this speed you travel over 80 feet in one second. It is easy to see that a moment's inattention to the road may mean disaster. For safe driving, think, not of how fast you can drive, but of how fast you can stop.

Join the A.M.A. Without Delay

Membership in the A.M.A. brings many benefits, including free insurance, highway information, license service, travel routing and other valuable advantages—at only \$10 for 12 months. You should be a member. Your nearest A.M.A. branch will gladly furnish full information on request.

A driver with normal reflexes driving a car equipped with good brakes stops, under favorable conditions, in the following distances:

at 55 m.p.h. 170 feet
at 50 m.p.h. 155 feet
at 40 m.p.h. 115 feet
at 30 m.p.h. 75 feet
at 20 m.p.h. 43 feet

With slow reflexes, inefficient brakes, or slippery road conditions, the distances travelled are much greater. Watch your speed, watch the road, drive safely.

It Pays to Belong to the A.M.A.
